

I am a person who travels many miles a day. When traveling across this Great Nation, it is difficult to find a local station that will provide me with the information and or programing that I have found useful to me on my xm radio. If this great product would be denied me I would find it difficult to stay intouch with the needed information I have become used to with my xm programing. Please leave this product alone and be allowed to keep those of us who do a great deal of traveling to continue to listen to this fine product.
